-

Cultural goods:

Cultural assets are tangible testimonies to culture and history as well as carriers of identification for a society and shape its self-image and social cohesion.

Fertilizer:

Are used in agriculture, forestry and horticulture to supplement the nutrient supply for the cultivated crops.

- Fertilizer
-

Fireworks:

Fireworks are ready-to-use products with an explosive or igniting charge (=pyrotechnical objects), which are used for pleasure.

- Fireworks
 - Party decorations
 - Volcano
-

Gas grill:

There is no international standard for the pressure regulator and therefore many different connections.

Example Germany: Pressure regulators fit on Swiss grills but cannot be screwed tightly. There is a risk of gas leakage.

- Gas grill
-

Fur:

Fur= fur of mammals (= coyote, lynx, ermine etc.)

- Winter jacket
-

Digitec Galaxus AG

Plant protection products:

Pesticides and herbicides mainly used to protect crops (insecticides, rodenticides, herbicides, pesticides, etc.). In Switzerland, very complicated and complex approval procedures apply.

- Pesticides
 - Animal repellents
 - Animal trap
-

Salt:

Products containing salt may only be imported with a special permit, which is difficult to obtain. Example aquarium salts.

- Aquarium Water Care
 - Spices + Salt
 - Soups + Stock
 - Shower gels + Bubble bath
 - Sauces
-

Laser pointer:

A laser pointer is a laser device which, due to its size and weight, can be held and guided by hand and which emits laser radiation for pointing, amusement, aversion and defence purposes. Such dangerous laser pointers may no longer be sold after 1 June 2019.

- Cat toys
 - Mice
 - Remote controls
 - Laser pointer
 - Presenters
 - Styluses
 - Keyboards with built-in lasers
 - Presentation accessories
 - Torch
 - Key ring
 - Projector accessories
-

Lithium batteries with more than 100 watt hours:

Due to the hazardous goods guidelines of the Swiss Postal Service, packages of lithium batteries that are not installed in the device and have more than 100 watt hours may not be transported via the package channel.

- Electric bike power accessories
 - E-mobility accessories
 - Tool batteries + Chargers
-

Medicine:

Products of chemical or biological origin intended or encouraged to have a medical effect on the human or animal organism, in particular to detect, prevent or treat disease, injury or disability.

- Dieting + Detox
 - First aid
 - Pain plasters + Muscle creams
 - CBD oil
 - Natural remedies
 - Wound care
-

 - Piercing jewellery
 - Rings
 - Jewellery sets
 - Wristwatches
 - Watch straps
 - Cufflinks
-

Animals - Leather goods / Plants - plant seeds:

Endangered animal and plant species should only be traded to the extent that their natural populations permit. For the purposes of CITES, trade is defined as any crossing of a border.

Requirements for sale: Only leather goods from domesticated animals may be sold, such as cowhide. A general import permit is required for the sale of plant seeds, cereals and field crops for sowing. For textiles containing parts of animal origin, the words "Contains parts of animal origin" shall be displayed. This information must be clearly visible to the consumer before purchase. The product information including labelling must be written in at least one official Swiss language ([vgl. Art. 4a Abs.1 lit. a THG](#)).

- Backpacks
 - Ballet flats
 - Belts
 - Between-seasons jackets
 - Boots
 - Boxing gloves
 - Bridles
 - Cut flowers

 - Winter gloves
 - Winter shoes
 - Work footwear
-

Animal enclosure:

Enclosed area where animals are kept, including open-air runs, cages, aviaries, terrariums, aquariums, rearing tanks and fish ponds.

Digitec Galaxus AG

Requirements for sale: For animal enclosures in Switzerland, there is an obligation to provide information (Art. 111 para. 2 TschV), i.e. the mass of the cages must always be stated, the intended purpose (animal species) as well as animal-friendly husbandry. The animal protection laws of most EU countries are different from those of Switzerland. Thus, for example, different requirements apply to the size of an enclosure.

- Aquariums
 - Cages + Hutches
 - Terrariums
-

Animal food:

Collective term for all forms of animal food, i.e. all food for animals kept by humans, such as farm animals, zoo animals, sports animals or pets.

Requirements for sale: Grain-based feed, such as horse feed, requires an import permit from Réservesuisse for feed weighing 20 kg or more. The importer must be registered accordingly. The trader must be registered in Switzerland as a supplier of animal feed and the products must comply the CH regulations. The declaration must be available in at least one official Swiss language (German, French or Italian).

- Bird food
 - Cat food
 - Dog food
 - Fish food
 - Horse food
 - Rodent food
 - Reptile food
-

Electronics:

Electronic products are critical in cross-border traffic, as Switzerland has different regulations to other countries in many areas of electrical safety.

Requirements for sale: Electronic products must comply with Swiss plug and socket devices and radio regulations (frequencies, etc.). For example, all imported devices with more than 2400 watts of power must be supplied with a T-23 adapter.
